## Supplementary Material

### Appendix 7:

Document Title: Overview of survey participants ordered by their care network.

Description: Table lists the interviewees' characteristics, including age, caregiving role, and the number of caregivers in their network. Caregiving roles were delineated into three task fields: (1) hands-on nursing and support, (2) coordination and organization, and (3) visits and care.

## Appendix 7

Appendix 7 Table 1: Overview of survey participants ordered by their care network.

network		interviewee			
#	number of care-givers	participants	gender	age*	tasks**
1	9	1 caring relative 1 professional nurse 1 neighborhood manager <sup>1</sup>	female female female	B B B	1, 2, 3 1 2
2	9	1 neighborhood helper <sup>2</sup> 1 neighborhood help manager <sup>3</sup> 2 nursing service managers <sup>4</sup>	female female male+female	B B B,B	1 2 1, 2
3	5	1 neighborhood helper 1 neighborhood help manager 1 nursing service manager	female female male	B B B	1 2 1, 2
4	8	2 care service managers	male+female	B,B	1, 2
5	4	1 neighborhood helper 1 neighborhood help manager	female female	B B	1 2
6	6	2 care service managers	male+female	B,B	1, 2
7	11	1 neighborhood helper 1 neighborhood help manager 2 nursing service managers	female female male+female	B B B	1 2 1, 2
8	7	2 care service managers	male+female	B,B	1, 2
9	9	1 caring relative	female	A	1, 3
10	9	1 caring relative	female	B	1, 2, 3
11	7	1 neighborhood helper	female	B	1
12	11	1 caring relative	female	B	1, 2

18	5	care recipient 1 professional nurse	female female	C B	1, 2 2, 3
19	6	care recipient 1 professional nurse	male female	B B	1, 2 2, 3
20	12	1 caring relative 1 neighborhood helper	female female	B B	1, 2, 3 1

<sup>1</sup> Neighborhood management is a part of urban development and usually acts as a link between residents and the municipality. Neighborhood management serves to integrate residents and to establish a sustainable resident organization.

<sup>2</sup> A neighborhood helper is a volunteer who is organized in a neighborhood association.

<sup>3</sup> A neighborhood help manager coordinates the volunteers of a neighborhood association. He/she acts as a broker between requests of help and volunteers.

<sup>4</sup> A nursing service manager coordinates the services of a nursing service provider. He/she acts as broker between requests for help and professional (nursing) staff.

21	12	1 caring relative 1 neighborhood helper	female female	B B	1, 3 1
----	----	--	------------------	--------	-----------

\*) Age presented in aggregated age groups.

**A:** 0-30 years old

**B:** >30-70 years old

**C:** >70 years old

\*\*) Description of the task fields of the interviewee conducted in the care network.

**1:** hands-on nursing and support,

**2:** coordination and organization,

**3:** visits and care

\*\*\*) care recipient was present, but did not contribute to the interview
