**Online supplement 4: Long-term research practice survey**

# Review of the Quality of Life Office PROtocol Checklist Workshop

The Quality of Life Office is supported by Cancer Australia to support the cancer clinical trials groups (CCTGs) to include patient reported outcomes in the research studies.

As part of this service, we have been running an annual PROtocol Checklist Workshop since 2011 to assist CCTG members to develop the quality of life and patient-reported outcome aspects of their trial protocols and to develop expertise among these members. Across all 7 workshops, 107 participants have attended.

We are administering this survey to obtain feedback on the long-term impact of our workshop. Please complete the short survey below - it is completely anonymous. It should take 5 minutes and will help us to improve our services in the future. Some of the questions relate to the workshop, while others relate to the PROtocol Checklist.

The checklist is available here, or can be accessed via the QOL Resources web-page:  
<http://www.pocog.org.au/content.aspx?page=qolresources>.

Do you recall attending the Quality of Life Office Protocol Checklist Workshop?  Yes  No

What year did you attend the PROtocol Checklist Workshop? (this was on your email invitation)  2011  2012  2013  2014  2015  2016  2017

## Since the workshop, have you used the Quality of Life PROtocol Checklist:

	yes	no
In developing new protocols ?	<input type="radio"/>	<input type="radio"/>
In amending existing protocols?	<input type="radio"/>	<input type="radio"/>
In other aspects of PRO/QOL studies? e.g. implementation, analysis, interpretation, reporting, etc	<input type="radio"/>	<input type="radio"/>

How did you use the checklist?

\_\_\_\_\_

What were the barriers to using the checklist?

\_\_\_\_\_

---

How useful do you think this checklist would be if you were to develop a new study with patient-reported outcomes?

Not at all

Very useful

*(Place a mark on the scale above)*
