Dear Omar (3)

an writing this letter because I started to miss you and my other friends. This is going to be my fourth year in India. I remember that the first year was a little bit hard for me and my family member because we arrived to the country in summer. Summer in India is different because it's not just hot but it has a big humidity rate and it was disturbing and till that day I always try to not go outside at a year after another. It's just great to live in India. It also has negative points positively ones.
